

9-13-12

To: Interim Committee

From: Niki Sardot , *MISSOULA RESIDENT*
Pres. Ravalli Farm Bureaus 800 families
Subject: HJR 39

Dear Committee,

Thank you for working so long and diligently on this issue.

I testified last session on SB494 and again last June at your meeting.

For 20 years as I understand it, a law has sat in the code and hasn't been used because it's so crazy.

Every person I've talked to say it is un-American -what the committee is trying to do for a few radical commissioners.

My story: I met a young man who pinched me, I didn't care that I couldn't understand him..... it turned out he was from the most communist spot in the world.

He told me stories of his home being shot up as Stalin came through. I listened but never understood, but over time I did.

Now, he sees actions under the U.N. plans here in Montana being put in place to take away the very thing he ran away from in the middle of the night being implemented on his land... land he worked 3 jobs for, for 43 years. (note: the Republican National Committee added to their plank in January that Agenda 21 be exposed) Missoula County pays dues to the UN plan)

He sends me here today...because you wouldn't understand his accent, and his zealous emotions.

DEQ ARE ONE SEPTIC PER ACRE
~~Regulations on peoples property is communism.~~

Rent of ones' property isn't a sale, isn't a separation of land.

Rent shouldn't be in Subdivision Title 76. Even American Land Planners said it shouldn't. It should be under Land Use.

The current law needs to be taken off the books.

Under the new #6 proposed bill ^{IF UNDER Title 76} allows radical commissioners to take away any chance of a landowner being able to have 5 units to rent because they can't afford the engineering much less the cost of review by the commissioners. If this #6 does go forward, make a law, not a fluctuation that radicals can change over night by mere resolution.

What you do today will affect your careers.

Ravalli ^{OPPOSES ANY LOSS OF PROP RIGHTS}
Farm Bureaus ~~18,000 members state that they oppose any loss of~~
~~property rights.~~

Now – after this meeting I have to go back and report your decision to my husband!

JUST SAY No to an oppressive LAW under
Thankyou, SUBDIVISION that fluctuates!
